

3-Point Arc

3-Point Arc

3-Point Arc

1. Select a defined element, such as Wall-1, and then click 3-Point Arc.
2. Click three points on an arc to determine the arc.

2-Point Arc

1. Select a defined element, such as Wall-1, and then click **2-Point Small Arc** or **2-Point Large Arc**.
2. Select the direction for drawing the arc, and then enter the radius.
3. In the drawing area, click the start point and the end point of the arc.

Circle

1. Select a defined element, such as Wall-1, and then click **Circle**.
2. Specify the center of the circle you want to draw.
3. Click any point on the circle.
