# Display

To adjust report formats as needed, you can use the following functions.

First Page: View the first page of a report.

Previous Page: Turn pages backward.

Next Page: Turn pages forward.

Last Page: View the last page of a report.

Zoom In: Enlarge the report page shown on the screen.

Zoom Out: Reduce the report page shown on the screen.

Adaptive: If you have zoomed in/out the report shown in the preview area, by clicking this button, the report pages will be automatically adjusted to adapt to the size of the display area.

Number of Auto-Fit Pages: After entering a page number, the column width will be adjusted to fit the page number.
